Technology of China

2024 USTC FUSEP SUMMER RESEARCH PROGRAM

July 1st-August 25th, 2024 Hefei, China

Join us for a memorable summer filled with knowledge, adventure, and cultural exploration.

Over a period of 4–8 weeks, students will work on scientific research projects in experimental teams supervised by USTC professors. A short report on their work and project at USTC will be expected at the end of their stay.

Beyond the research experience, the program offers a diverse array of activities, including enlightening lectures on academic topics, visits to national laboratories, cultural site tours, and the chance to interact with USTC student clubs.

Program Duration

For undergraduates, July 1st – August 25th, flexible duration (4 to 8 weeks) with a minimum requirement of 4 weeks
For graduates, July 1st to July 30th, 1 month

Qualifications

- Full-time registered students at the undergraduate or graduate level majoring in Physics, Chemistry, Materials Sciences, Life Sciences, Medicine, Mathematics, Engineering, Computer Science, Earth and Space Sciences, or relevant majors
- Should have completed at least two years of full-time undergraduate studies in the relevant field by the Summer of 2024
- Academic Excellence with a CGPA (Cumulative Grade Point Average) of 'B' or above, with a good knowledge of English

Benefits

- Waived tuition and registration fees
- Excellent students may receive support through the USTC Fellowship
- Provided Certificate of Participation and Performance Evaluation
- International students who apply for degree programs in the future will be given priority for winning a sponsorship if they have obtained the certificate of the program
